## Education

---

### Bachelor of Computer Applications

KLE Technological University, GPA: 7.5/10

Expected 2025

## Projects

---

**BLOGTECH: Tech Stack:** NextJs, NextAuth, Tailwind, MongoDB.

- Features AI-powered prompts to assist users in generating and sharing efficient search queries for improved discoverability.
- Provides access to the latest technology blogs, keeping users updated with current trends.
- Allows users to contribute valuable insights and resources in a collaborative environment.

Check it out here: [BLOGTECH](#)

**BOOK MY TABLE: Tech Stack:** React, Node.js, Express.js, MongoDB.

- Built a table reservation system with user authentication and booking handling.
- Integrated QR code generation for each booking, displayed on the site and sent via email using NodeMailer.
- Developed a responsive front-end for seamless user interaction.

[Repository link](#)

**PDF CHATBOT: Tech Stack:** Python, LLaMA, VectorStore.

- Created a chatbot that answers queries based solely on PDF content.
- Ensured privacy by running locally without external data access.
- Utilized LLaMA models for accurate, document-based responses.

**CodeClub: Tech Stack:** React.js, Node.js, Express.js, MongoDB, Codeforces API.

- Developed a platform that engages users with daily coding challenges.
- The backend checks Codeforces submissions, and correct answers earn users "codecoins" to redeem for goodies.
- Features Gemini API integration for teachers to know performance and generate tests.
